# What is FedCenter?

- **FedCenter's** mission is to help federal environmental managers better manage their environmental programs, and help improve their environmental performance
- **FedCenter** provides environmental managers with a variety of program area guidance, regulatory compliance and environmental stewardship information and compliance assistance tools
- **FedCenter** is a partnership between federal agencies pooling their resources and expertise to help meet their environmental compliance challenges

# Program Development

- Program Area Information

- Summary of EO 13423 requirements
- Regulations, guidance, and policy
- Supporting information and tools available
- Lessons learned
- Training, briefing, and presentation aids
- Conferences, workshops, and training opportunities

Program Areas
Executive Order 13423
Acquisition
Chemical Management
Cleanup
Electronics Stewardship
EMS
Energy
Env. Compliance
High Performance Bldgs
Natural Resources
NEPA
Pollution Prevention
Sustainability
Transportation

# Focus on EMS

- Regulations, Guidance and Policy
  - EO 13423 and EO 13423 *Implementing Instructions*
  - Clarification of Declaration of Conformance Requirements in Instructions to EO 13423
  - EPA, DOE, NASA and other Federal agency guidance and policies
  - Links to ISO 14000 EMS standards
  - OMB Scorecard guidance
  - EMS Integration or “Crosswalks”
    - Aligning NEPA with EMS
    - EMS Crosswalk for USTs
    - EMS and the Federal Electronics Challenge
    - Integrating Green Purchasing into Your EMS
    - EMS Communications Crosswalk

**Regulations, Guidance, and Policy**

**EO 13423**

 [Executive Order 13423](#)  
**Strengthening Federal Environmental, Energy, and Transportation Management**  
24 January 2007  
Executive Order 13423 "Strengthening Federal Environmental, Energy, and Transportation Management", signed by President Bush on January 24, 2007. The order sets goals in the areas of energy efficiency, acquisition, renewable energy, toxics reductions, recycling, renewable energy, sustainable buildings, electronics stewardship, fleets, and water conservation. In addition the order requires more widespread use of Environmental Management Systems as the framework in which to manage and continually improve these sustainable practices.

**Administration Guidance and Policies**

 [Clarification of Declaration of Conformance Requirements in Instructions to Executive Order 13423 \(DOC 48.13 KB\)](#)  
This document, issued by OFEE, clarifies what is required in order to declare conformance with the EMS requirements of EO 13423.

 [Environmental Compliance Management Improvement Initiative, PMC Meeting Handout \(DOC 73.73 KB\)](#)  
This document, dated October 2004 describes what requirements must be followed if a facility/organization does not have an EMS.

**ESHMS Guidance**

 [ESHMS Implementation Guidance](#)  
The Office of the Federal Environmental Executive has released implementation guidance for use in preparing and deploying a Hierarchical, Organization-focused Environment Safety and Health Management System (ESHMS). The guidance includes sample templates while outlining key steps for agencies to follow to implement a hierarchical, organizational-level, enterprise ESHMS, from headquarters down to facilities. The templates may also be used for the development of a system that addresses environment only (i.e. EMS) or for a system that is implemented at only one level of the organization.

**Federal Agency's Guidance and Policies**

 [Department of Energy \(DOE\) Order 450.1, Environmental Protection Program](#)  
This DOE Order details the implementation of EMS at DOE Facilities.

 [Department of Interior \(DOI\) Manual 515 DM 4, Environmental Management Systems](#)  
This Department Manual release, 515 DM 4, issued August 13, 2008, updates Departmental policy, responsibilities, and functions on environmental management systems to be conducted on Departmental lands, facilities, operations, and services.

 [DOI Interpretive Guidance on the Department's Environmental Management Systems Policy \(515 DM 4\) \(PDF 7.00 MB\)](#)  
This Department of Interior Environmental Compliance Memorandum No. ECM08-2, dated December 18, 2008, entitled "Interpretive Guidance on the Department's Environmental Management Systems Policy (515 DM 4)", provides guidance and information to departmental bureaus and office on EMS implementation.

 [NASA's Environmental Management System \(EMS\)](#)  
NASA Procedural Requirement 855.3.1A describes NASA's Environmental Management System (EMS).

**EPA Guidance**

 [EPA Guidance Encourages the Use of EMS in Enforcement Cases \(PDF 307.22 KB\)](#)

# Focus on EMS

- EMS Development
  - *How to Develop an EMS*
  - *An Implementation Guide for Small & Medium Size Businesses*
  - Sample lists of aspects and impacts
  - Contract language for including EMS in contracts
  - Agency implementation policies and example EMSs
    - Chesapeake Bay-Focused EMS
    - DLA ESOH Management System
    - DOE HQ Facilities EMS
    - VHA's GEMS Guidebook
  - EMS case studies and crosswalks
- Measuring EMS Implementation/Success
  - *Questions for Implementation Assessment*
  - EMS scorecard metrics, reporting guidance and scorecard results
  - Agency-wide environmental awards and recognition programs
    - Closing the Circle
    - Secretary of Defense Environmental Awards

# Focus on EMS

- Training, Presentations and Briefings
  - Briefing guides
    - *Army Commanders EMS Briefing Guide*
    - *DHHS EMS Manager's Briefing Guide*
    - Various senior-level briefings
  - Auditor training
    - *Introduction to EMS Auditing Concepts*
    - *EMS Internal Auditor Training Guide*
    - *AWMA's Internal Environmental Auditor E-Course*
  - EPA's *Introduction to EMS* (online training)
  - DOI Learn's EMS Implementation Course
  - Various EMS employee awareness training courses
  - Conference proceedings
- Conferences and Events

## Training, Presentations, and Briefings

-  [A Brief Overview of Environmental Management Systems and ISO 14001](#)  
Senior management briefing developed by OFEE
-  [Department of Health and Human Services EMS Manager's Briefing Guide \(PDF 121.49 KB\)](#)  
The DHHS version of the Army's EMS Manager's Guide.
-  [DOI General EMS Awareness Training \(PPT 932.86 KB\)](#)  
Dept. of Interior's EMS awareness training presentation, dated August 2007.
-  [Electronics and Your EMS Commitments](#)  
This presentation reviews the definition of an Environmental Management System (EMS) and why the federal government is implementing EMSs. It also describes the connection between EMSs and the Federal Electronics Challenge and provides examples of Federal EMSs that have focused on electronics.
-  [EMS Internal Auditor Training Guide \(PDF 202.11 KB\)](#)  
Introduction to EMS auditing concepts.
-  [EMS Training Presentation \(PPT 84.99 KB\)](#)  
A MS Powerpoint presentation that was given to senior officials at the Department of Justice headquarters building in July, 2004.
-  [EPA Region 3 EMS Employee Awareness Training](#)  
There are three training sessions. One is for the Region 3 regional staff on implementing an EMS in the Philadelphia Regional Office. Two is for focusing the Region 3 staff on their responsibility in the system, our policy, objectives, accomplishments and next steps. Three is meant to provide a good introduction to what an EMS is, and what responsibilities a new employee, contractor, or other people working in our office have in our EMS.
-  [EPA Region 9/10 EMS Training Presentations](#)  
These presentations provide guidance and tools for facility Program Managers to use and modify to meet their facility training and educational needs. They can be used for general awareness training for upper management, or for detailed EMS implementation guidance for individuals and line managers implementing EMS improvements.
-  [EPA's Introduction to Environmental Management Systems \(Online\)](#)  
This course provides an overview of environmental management systems (EMS) and how EMS can support environmental improvements at facilities that are subject to environmental regulations. It also presents information regarding the United States Environmental Protection Agency's (EPA) involvement in supporting EMS efforts at facilities regulated under a number of environmental statutes, including the Resource Conservation and Recovery Act (RCRA). This training course will take about 1 hour to complete.
-  [OMB Scorecards: Picking Up The Pace \(PPT 1.01 MB\)](#)  
This presentation, given at the Federal Facilities Council meeting, discusses how the scorecards work and the status of the program.
-  [SAMPLE EMS Manager's Guide \(DOC 117.25 KB\)](#)  
Generic version of the Army's EMS Manager's Guide.
-  [Senior Management Briefing Fact Sheet on EMS \(PDF 96.94 KB\)](#)  
One page management brief.

Search FedCenter 

[Home](#) » [Assistance](#) » [Facility Regulatory Tour](#) » **Laboratories**

**Overview**

A laboratory is a facility where the laboratory use of hazardous chemicals occurs. It is a workplace where relatively small quantities of hazardous chemicals are used on a non-production basis (29 CFR 1910.1450(b)). This can be a wet lab, a biology lab, a histology lab, an hematology lab, a dry lab, a necropsy lab, a water analysis lab, or a waste characterization lab to name a few possibilities.

The *Laboratory Use of a Hazardous Chemical* is defined as handling or use of such chemicals in which all of the following conditions are met (29 CFR 1910.1450(b)):

1. chemical manipulations are carried out on a laboratory scale
2. multiple chemical procedures or chemicals are used
3. the procedures involved are not part of a production process, nor in any way simulate a production process
4. protective laboratory practices and equipment are available and in common use to minimize the potential for employee exposure to hazardous chemicals.

The term *Laboratory Scale* means to work with substances in which the containers used for reactions, transfers, and other handling of substances are designed to be easily and safely manipulated by one person (29 CFR 1910.1450(b)).

**Focus Areas**

→ **Air Emissions**  
Lab operations that result in potentially regulated air emissions include: exhaust from fume hoods, boilers/steam units, air conditioning systems, incinerators, and ethylene oxide sterilizers.

→ **Hazardous Materials Storage**  
Depending on the volume of hazardous materials or extremely hazardous materials stored on site, federal facilities must submit notifications of their activities.

→ **Hazardous Waste**  
Hazardous waste is typically generated in small quantities in the laboratory setting, but laboratories can be a source of acute hazardous waste as well.

**Focus Areas**

**Laboratories**

- Air Emissions
- Hazardous Materials Storage
- Hazardous Waste
- Universal Waste
- Wastewater

**P2 Opportunities**

- EPA's Database on Mercury-Containing Products and Alternatives
- Pollution Prevention Resource Exchange (P2Rx)

**Green Products**

- Product Stewardship Institute

**Best Practices**

- EPA Laboratories and Their Environmental Attributes
- Water Conservation

# Facility Regulatory Tour

The screenshot shows the FedCenter.gov website with a blue header bar. The header includes the FedCenter logo, a search bar, and navigation links for Home, What's New, Program Areas, Assistance, Events, Training, Opportunities, Members, and Help. The Help link is underlined. The main content area has a sub-header "Facility Regulatory Tour" and a section titled "Hazardous Materials Storage". The "General Description" section states: "Depending on the volume of hazardous materials or extremely hazardous materials stored on site, federal facilities must submit notifications of their activities." The "Summary of Federal Requirements" section includes a "Release Notification" sub-section. It lists requirements for notification, such as the chemical name, substance hazard, quantity released, time and duration, health risks, and proper precautions. It also mentions a follow-up notification to the Local Emergency Planning Committee (LEPC) and the State Emergency Planning Committee (SEPC). The "Extremely Hazardous Substances" section notes that facilities must notify the SERC and LEPC within 60 days if extremely hazardous substances are present in amounts equal to or greater than threshold limits. The "Community Right to Know" section links to information about the Toxic Chemical Release Reporting: Community Right-to-Know. The right sidebar contains sections for "Federal Facilities Environmental Stewardship & Compliance Assistance Center", "Regulatory Sources" (links to 40 CFR 302, 355, 372, and EPCRA FAQ), and "Related Topics" (links to Air Emission Sources, Cleanup Sites, Facility Infrastructure, Laboratories, Medical Facilities, Storage Tanks, Vehicle Maintenance, and EPA's TRI Program). The footer includes the FedCenter logo and the URL <http://www.fedcenter.gov/>.

# Collaboration Resources

- Private *workgroup areas*
  - Document storage and workflow, discussion forums, and calendars
  - Currently supporting 30+ clients including:
    - Region 5 Sustainability Network
    - Interagency Workgroup on Climate Change Impacts
    - Interagency Environmental Leadership Workgroup
    - Dallas Sustainable Skylines Initiative
- Listservs
- E-mail subscription service

The screenshot shows the Dallas Sustainable Skylines Initiative workgroup page on FedCenter.gov. The page features a header with the FedCenter logo and the title 'Dallas Sustainable Skylines Initiative'. It includes a sidebar with 'General Information' and 'DSSI Project Descriptions' sections, and a 'Members' section showing 'Logout Steve Luzzi'. The main content area has sections for 'Announcements', 'File Library', 'Project Workgroups', 'Comments/Suggestions', and 'Discussion Forums'. The 'Announcements' section shows a recent post about quantification documents. The 'File Library' section shows a folder for the Dallas Sustainable Skylines Initiative. The 'Project Workgroups' section lists various workgroups with their counts. The 'Comments/Suggestions' section shows a list of conference items. The 'Discussion Forums' section shows a test discussion forum with 0 topics and 0 replies. The right sidebar shows a list of recently posted items and a 'Submit An Item' button.

2008 Federal Environmental Symposium

Registration for Symposium East is now closed. Symposium West registration is open until May 30th

**Symposium East**  
June 2-4, 2008  
National Institutes of Health, Bethesda, MD  
08:00 AM to 05:00 PM  
Open to the Federal Community

**Symposium West**  
June 17-19, 2008  
Big Sky Resort, Big Sky, MT  
Click for Symposium West details

A Message from the Office of the Federal Environmental Executive

It is our pleasure to invite you to participate in the 27th Annual Federal Environmental Symposium.

This year, there will be an **East Symposium** and a **West Symposium**. The East Symposium, hosted by the National Institutes of Health (NIH), National Institutes of Health (NIH), will be held at the Natcher Conference Center (building 45), on June 2 - 4, 2008, from 08:30 a.m. - 05:00 p.m. The conference center is located on the campus of the NIH, 9000 Rockville Pike, Bethesda, MD 20892.

This year we are very excited to have added a parallel Symposium out west, hosted by the Conservation and Natural Resources Program, developed by the General Network for Sustainability - West and supported by several federal land agencies within the greater Yellowstone region. The West Symposium will be held at the Big Sky resort, 1 Lone Mountain Trail, Big Sky, MT 80716, on June 17 - 19, 2008.

This past year was one again characterized by stellar efforts by the Federal community to lead by example in environmental and energy management. We have learned a great deal over the past 7 years, and this year, we have learned over the past 2 years the value and utility of the symposium - a place where practitioners can come together to share tangible ideas and experiences.

The focus this year is the **Implementation Processes of Executive Order 13423 - Strengthening Federal Environmental, Energy, and Transportation Management**. The focus is to provide and exchange information and learn from our colleagues and experts on activities and experiences over the past 2 years. The symposium will provide a forum for practitioners to discuss and review implementation guidance that has been developed over the past year, as well as changes to the OMB environmental stewardship, energy, and transportation scorecards.

We look forward to your participation in the symposia. We have much information to share and build upon, so please join us. Whether in Bethesda or Yellowstone, we are sure you will find a worthwhile investment - and fun!

Communities of Practice

FedCenter supports the communication needs of the federal community with a broad suite of secure collaboration capabilities, offering document management tools and discussion forums for the needs of task-driven, private working groups, and blogging and group authoring tools to facilitate broader dialogue and idea development needs of more openly structured communities of practice.

This page contains links and points-of-contact for the federal communities of practice (CoP) hosted by FedCenter. If you are interested in joining any of these communities, please click on the link for more information or contact the POC listed for your community of interest.

**Federal Laboratories CoP**  
Discussion listserve for federal laboratory practitioners.  
POC: Marie Muller (EPA)

**Interagency Working Group on Climate Change Impacts**  
An informal forum for sharing data, approaches, scenarios and expertise relative to forecasting and responding to climate change impacts.  
POC: Stephanie Yousef (USACE)

**TEAM Group**  
Access to a suite of environmental audit protocols and checklists, and environmental assessment and compliance manuals developed exclusively for federal agencies.  
POC: Donna Schell (USACE)

**Federal Solid Waste Management CoP**  
Collaboration amongst federal agencies to address decommissioning, mercury reduction and school cleanup programs.  
POC: Kenny Floyd (NIH)

# Current Initiatives

- **Training Services**
  - In-house training library
    - Federal Labs regulatory compliance course
    - UST regulatory compliance course
    - EMS training
  - Webinars-on-demand service
-  **RSS News Feeds**
  - Subscription-based, automated information delivery service via data aggregators on the user's desktop

The screenshot shows a slide from an EPA training course. The left sidebar contains a table of contents for 'EPA FEDERAL LABORATORIES Environmental Compliance Training'. The main content area features a collage of images related to environmental compliance, including a microscope, laboratory glassware, and industrial equipment. The EPA logo and the course title 'FEDERAL LABORATORIES Environmental Compliance Training' are prominently displayed. A note at the bottom says 'Click the ▶ button at the bottom of the screen to continue.' and 'Note: This program includes some audio narration. Use speakers or headphones for audio. Click the "Audio Text" button for captions.'

# Current Initiatives

- Recovery Act support
  - Grant opportunities for feds
  - FEDRPTS tool
  - Implementation guidance

## Recovery Act

### [Brownfields Job Training Grants](#)

The intent of these grants is to provide environmental job training projects that will promote job creation and economic development by facilitating the assessment, remediation, or preparation of brownfields sites. Applications are due on April 20, 2009.

### [Clean Diesel Emerging Technologies Program](#)

These funds are available to U.S. regional, state, local, tribal or port agencies with jurisdiction over transportation or air quality. This is a competitive grant program that will support the creation of national, state or local innovative clean diesel financial programs, which maximize job creation and preservation. Innovative financial programs include those where the loan recipient receives a unique financial incentive (i.e., better than regular market rates or conditions) for the purchase of retrofitted vehicles or equipment. Applications are due May 5, 2009.

### [Coastal and Marine Habitat Restoration Projects](#)

The focus of the funding is projects that will restore coastal and marine habitats under the American Recovery and Reinvestment Act of 2009. Applications are due May 6, 2009.

### [Electric Drive Vehicle Battery and Component Manufacturing Initiative](#)

The intent of these grants is to support the construction (including production capacity increase of current plants), of U.S. based manufacturing plants to produce batteries and electric drive components. Applications are due May 19, 2009.

### [Energy Efficiency and Conservation Block Grant \(EECBG\) Program](#)

This DOE program provides federal grants to units of local government, Indian tribes, states, and territories to reduce energy use and fossil fuel emissions, and for improvements in energy efficiency.

### [Multi-Species Conservation Program](#)

Implementation of the Lower Colorado River Multi-Species Conservation Program (LCR MSCP). The LCR MSCP is a multi-stakeholder, Federal and non-Federal partnership which balances the use of the Colorado River water resources with the conservation of native species and their habitats in compliance with the Endangered Species Act. Funding will be available to fund LCR MSCP projects to complete conservation measures described in the Habitat Conservation Plan. Applications are due May 29, 2009.

### [Transportation Electrification](#)

The purpose of this grant is to establish development, demonstration, evaluation, and education projects to accelerate the market introduction and penetration of advanced electric drive vehicles. DOE's goal is for the vehicles and electric technologies to achieve a fast market introduction and reach high volume production. Applications are due May 13, 2009.

### [Water Quality Management Planning \(WQMP\) Grants](#)

These grants will be appropriated to State and Tribal governments for projects to address green infrastructure, water or energy efficiency improvements, or other environmentally innovative activities.

# Summary

- FedCenter exists to help federal agencies meet their regulatory compliance obligations and improve their environmental performance
- We want to know....
  - How are we doing?
  - What has been of value to you?
  - Can you find information readily?
  - Are we providing the services you need?
  - What additional compliance needs do you have?
- You can help....
  - Are you interested in contributing to the our information base?
  - Are you willing to offer your environmental expertise in a particular area?
  - Do you have the means to contribute financially?
- Remember – this is *your* Center! *So let's partner.*
